Canyon's postoffice will change hands on March 18th with the appointment of a new postmaster. Applications for postmaster must be in the hands of the Civil Service Commission at Washington by January 30th. A number of citizens have asked for information regarding the office but so far no authentic list has been made public.

The following information is sent out by this commission regarding the appointment of postmaster:

To fill the vacancy in the position of postmaster, the United States Civil Service Commission announced, at the request of the Postmaster General and in accordance with an order of the President, an open competitive examination.

To be eligible for the examination, an applicant must be a citizen of the United States, must reside within the delivery of this post office, must have so resided for at least one year preceding the date for close of receipt of applications, must be in good physical condition, and within the prescribed age limits. Both men and women are admitted.

Under the terms of the Executive order, the Civil Service Commission will certify to the Postmaster General the names of the highest three qualified eligibles, if as many as three are qualified, from which the Postmaster General may select one for nomination by the President. Confirmation by the Senate is the final action.

Applicants will not be required to assemble in an examination room for scholastic tests, but will be rated on their education and business experience and fitness. The Civil Service Commission will make inquiry among representative local business and professional men and women concerning the experience, ability, and character of each applicant, and the evidence thus secured will be considered in determining the ratings to be assigned to the applicants.

Four Men on Grand Jury Are Disqualified

Mrs. Geo. Johnston Is
Indicted; Thomas Is
Billed Again

District court officials were thrown into confusion Monday morning when E. T. Miller of Amarillo disclosed the fact that four members of the grand jury were not qualified, having not paid their poll tax last year. The law provides that members of the grand jury must be qualified voters. This is the first time that action of a grand jury has ever been questioned in Randall county for non-payment of the poll tax.

Mr. Miller raised the question of non-poll tax payment in the case against Duncan Thomas, charged with theft.

The grand jury had adjourned until Wednesday of this week, but Judge Bishop ordered it re-con-

MISS OLIVE V. SCHRAMM

I take this means of announcing that I am a candidate for re-election to the office of Treasurer for Randall County, Texas.

W. W. Kuehn is a Candidate For Co. Commissioner

W. W. Kuehn has authorized The News to make his announcement as a candidate for County Commissioner, Precinct No. 3.

Mr. Kuehn has been a resident of Randall county for 44 years. During that time he has been a farmer-stockman, and for eight years was engaged in business in Canyon, but all of the time retaining his interest on the farm.

He is well acquainted with conditions in every section of the county, knows land values so that he feels he will be able to make a valuable member on the Commissioners Court, if elected. While he is primarily interested in seeking to serve the best interest of the citizens of his precinct, yet he feels that a commissioner must have and take an active interest in the affairs of the entire county, and do justice to all citizens, especially as to road building and equalizing taxes without fear or favor.

Mr. Kuehn states that he stands for strict economy in the administration of the county's affairs, and reduction of taxes to the lowest possible figure. If elected he will inspect carefully the bills which are paid for the up-keep of the county, and insist that an accurate record be kept.

FEDERAL MONEY IS REJECTED BY CITY OFFICIALS

Water Extension Would
Cost Too Much Is
Reason

NOT USE \$9,000.00

Costly Set Up Is Made
by Government on
Work

The City of Canyon has rejected the offer of PWA for \$9,000 to build additional water mains. The commission reached the conclusion Monday night that the city could build the mains cheaper without taking the government money, 30 per cent of which was supposed to be a gift.

The loan-gift was authorized last week in Washington in the sum of \$9,000. In making application for the \$9,000 loan, it was believed that the city would be able to save money on the water extension.

However, the strict requirements in connection with the loan, both as to the engineering costs and other overhead expenses, was found to make the project cost more than it could be done by the city thru its own supervision and use of local labor without a contract.

Very few PWA projects have been granted for Texas, and in most cases it is found that the cost of handling the projects under the terms of the government is more than the 30% gift which is allowed to each project. Amarillo has a grant on water works extension which seems to be in about the same shape as the Canyon project.

The rejection of the Canyon grant is the first case in the state of this kind.

It is likely that the city will make no plans to extend the water mains in the immediate future.

Judge S. B. Orton Announces For Re- Election to Office

JUDGE S. B. ORTON

The following announcement was authorized yesterday by Judge S. B. Orton, who is a candidate for re-election to the office of County Judge and Ex-officio Superintendent of Public Instruction:

In announcing for re-election I am mindful of the fact that the voters of Randall County have without regard to tenure most often chosen those they deemed qualified. I am also mindful that any consideration for re-election must be based on service rendered.

In the last three years in spite of abnormal expense due to charity and public work, and poor tax collections due to the depression and drouth, Randall County has stayed on a cash basis; the county debt has been reduced to where it is not burdensome; no worth while function of the county government has been curtailed; county taxes have been cut in half; and a large amount of public improvements have been made than in any other county in Texas with anywhere near our population and wealth.

I do not claim credit for these things, but I have worked with the Commissioner's Court and a loyal band of citizens to bring them about. I would like to continue the work.

S. B. ORTON,
Candidate for Re-election
as County Judge of Ran-
dall County.

Caliche Covers Roadbed on New Highway to Park

Caliche covers the new highway east of Canyon to the Palo Duro State Park with the exception of the fill on the Tierra Blanca Creek, and the new road bed east from the Marshall place.

County Engineer E. H. Gohmert released all trucks on the job Tuesday, but is using all of the men allowed under the county quota for finishing work, completing the grade at the Tierra Blanca, and building the new road bed on the east end of the road to the Park.

More than 125 Amarillo men are still working on the job, furnishing their own transportation to and from the job. When the trucks were laid off Tuesday the men had the choice of moving to a Potter county project or continuing on this road, furnishing their own transportation.

W. S. Crawford, contractor on the bridges and culverts, is expected here next week to start work on his contract.

Nels Walberg of Pampa was a business caller here Monday.

ARTISTS WILL PAINT MURALS IN THE MUSEUM

Dallas Director Selected

Yesterday

TWO AUTHORIZED

Bugbee and Mead Named
As Class A Artists
For Work

Two Panhandle artists were designated yesterday to place two mural paintings in the Panhandle-Plains Historical Society museum.

This work is being done as a Public Works of Art project, and Dr. John S. Ankeney, director of the Dallas Public Art Gallery, and director of Region 12, came to Canyon yesterday to inspect the proposed project and make plans with the artists.

Harold Bugbee of Clarendon and Ben Carlton Mead of Amarillo were designated by him as Class A artists to carry out the project.

On the east wall of Pioneer Hall, Bugbee will place a panel six and one half feet by fourteen feet, depicting the entrance of Col. Charles Goodnight and his herd of cattle into the Palo Duro Canyon. On the west wall opposite, a panel of the same size will be painted by Mead, showing Coronado's entry into the Palo Duro Canyon, 400 years before. The Coronado panel will tell of the coming into use of the horse in the Panhandle of Texas, while the Goodnight panel will suggest the last period in which the horse was supreme.

Mr. Bugbee and Mr. Mead have already planned six more panels for the museum walls. These are a picture of pre-pueblo life which will face the main entrance of the building; a panel depicting the life of plains Indians; one showing the Mexican period; another the buffalo hunters; and a fifth the military occupation of the Panhandle, with the coming of permanent settlers as the last panel.

The two panels now being painted are to be completed by February 15, or as soon thereafter as possible. The six additional panels will be added as soon as conditions allow.

At the conference here yesterday there were, besides Dr. John S. Ankeney, Dr. Florian Kleinschmidt of Lubbock, a member of the regional advisory committee, Ben Carlton Mead, Floyd Studer, and Horace M. Russell of Amarillo; Harold Bugbee of Clarendon, and Professor L. P. Sheffy and Dr. J. A. Hill of Canyon.

THE CANDIDATES

The candidates are again with us. 1934 will be another of those years when fierce political battles will be fought, candidates will call each other unkind names, voters get all hot and bothered over candidates until the real issues are forgotten, and finally, the old ship of state will roll out into 1935 as though nothing important had happened.

If democracy is to be a success, we must have politics.

Offices are created because the people expect many kinds of services from their government.

These offices are filled, usually by popular election, because under the term of Democracy we pronounce the people capable of self government and therefore capable of electing more efficient officials than could otherwise be selected.

The test of the voter is to select capable officials.

No one blames any individual for running for public office, especially should there be a living salary connected with the job.

However, the test of intelligence should rest upon the voters' ability to select from those who offer for office the one best qualified for the place. If the voters make a mistake and select the wrong person for the job, there is no one to blame excepting those who voted for this individual. Usually the vote is cast through prejudice of some candidate in the race, rather than respect for the ability of the one selected.

This would be a fine year for all of us to lay aside our individual prejudices, and make an honest attempt to select the one most highly qualified for each and every office in the state.

Voters have an obligation in elections. Listen carefully to the story presented by the various candidates. Consider the qualifications which are offered. Then in going to the ballot box, vote for the candidate who appears to be the best suited for the office which he seeks.

Incidentally, no one can vote without a poll tax receipt. Make

this payment, or you will have no part in the elections of the year.

W. T. has applications pending before the state PWA committee amounting to \$136,000 for permanent improvements. Very courteous hearings were given President Hill at Fort Worth last week on these projects. So far no money has been spent in Texas under PWA projects. It is hoped that these projects will be allowed. Together with the improvements now being made on the administration building, the College plant would be greatly improved if the PWA grant is allowed.

Increase in bank deposits have been noticed over the nation since the federal government started the guaranty system. There is no reason why all surplus money should not be placed in the banks, where it is guaranteed by the government. Loss of money by theft and fire is terrific.

Steps to Nowhere!

Authorities estimate that the average housewife, in preparing three meals a day, takes 578,434 unnecessary steps every year. Just think of it! ... over half a million steps that lead to nowhere! Is it any wonder that some women are always "worn out" at the end of the day? ... that, try as they will, they are never able to find time for the things they'd like to do?

The biggest step you can take to save steps is to install a Modern Gas Range in your kitchen. You'll be literally amazed at the difference it will make ... in steps ... in time ... in actual money savings. If you're the least bit inclined to doubt, call on your gas appliance dealer today, and see the new 1934 Gas Ranges. You'll need no further proof.

C.C.C. CAMP NEWS

(By Nugent L. Lowrey)
Company 1828

In view of favorable weather conditions, steady progress has been continuing on all phases of the State Park project since the addition of 350 new men during the past week. Along with the road work, and bridge work being done on the floor level of the canyon, much improvement has been made toward building the rock lodge houses. A large amount of rock has been finished in the quarry, and more rock is being cut and the ground has been cleared. On Monday of this week the steam shovel began excavating. The plan of establishing a museum in one wing of the rock camp is to be carried out. A hard surfaced road will be brought from that location to connect with the main highway from Canyon.

Equipment for the electric lighting system at Palo Duro Camp was received several days ago, but work on the installation has been stopped, due to a few minor details. Colonel Coppock left on Tuesday morning for Fort Sill on business. One part of which being to attend to certain details necessary for the lighting system, and it is anticipated to have electric lights in use throughout the camp in another two or three weeks.

James Best and Gordon Foster have returned to their duties here, after spending a month in Base Hospital at Fort Sill. Noah Eads was taken to Base Hospital last Saturday in the camp ambulance, as he injured his back. This is one splendid feature of CCC service, namely, that a Veteran is furnished medical attention, and there are some fine testimonials as to the benefits derived from this feature.

Lieut. Henry Snow, of Co. 1828, has gone to Brownsville, his home for 10 days, on business. He left Monday, taking his family with him. Lt. Snow has had his family in Canyon since September.

In recent entertainments furnished at the camp, groups from Canyon have taken an active part. Mrs. Tom Knighton was instrumental in arranging an excellent program, on which the Tyner sisters and the Tolley sisters performed well, and a few numbers by the T-Anchor Cowboys, along with other numbers gave proof that Mrs. Knighton deserves much praise for the courtesy of bringing the entertainment before the Veterans.

Another splendid program was given by the Glee Club from W. T. with Miss Pauline Brigham directing, and with Colonel Coppock in the role of master of ceremonies and host at the conclusion of the program, serving refreshments.

From Amarillo came Miss Hylagene Roberson, who is dancing instructor of the Academy of Music and Art. She presented her class in some novel dance numbers and some classic acrobatic stunts that thrilled and even amazed the large audience.

Another pleasing entertainment was furnished by the Rambling Cowboys from Amarillo, who gave some peppy musical numbers and song hits.

On last Sunday morning, in the absence of Chaplain Ramage, an excellent sermon was preached by L. B. Saxon, who is an enrollee of the camp and who is an ordained minister.

For the evening, Dr. Meyer of Sugar T. gave a very interesting talk.

On Tuesday evening, January 23rd, there will be a program given by the men of the camp, the program to feature both the camp orchestra and some clever stunts of comedy that will hold surprises. For one thing, there will be a "pie eating" contest, but other surprise stunts are being withheld. A crowd of visitors are expected, as people from the surrounding community are invited to be present.

A farewell party was given in the W. H. Dawdy home Saturday night for Mr. and Mrs. L. C. Ruthardt and family.

Mr. and Mrs. R. N. Henry and family attended the funeral of a relative near Ralls.

Weather is still dry; cold mornings, but rather warm in the afternoons.

O. M. Scott and family visited in the J. J. Leavitt home Sunday.

Little Ervin Davis is on the sick list this week.

Mrs. C. B. Fewell and son spent Sunday with Mrs. Burtz in Canyon.

Clarence Leavitt, who has been attending to business in Enochs, returned home Saturday.

Equipment for the electric lighting system at Palo Duro Camp was received several days ago, but work on the installation has been stopped, due to a few minor details. Colonel Coppock left on Tuesday morning for Fort Sill on business. One part of which being to attend to certain details necessary for the lighting system, and it is anticipated to have electric lights in use throughout the camp in another two or three weeks.

James Best and Gordon Foster have returned to their duties here, after spending a month in Base Hospital at Fort Sill. Noah Eads was taken to Base Hospital last Saturday in the camp ambulance, as he injured his back. This is one splendid feature of CCC service, namely, that a Veteran is furnished medical attention, and there are some fine testimonials as to the benefits derived from this feature.

Lieut. Henry Snow, of Co. 1828, has gone to Brownsville, his home for 10 days, on business. He left Monday, taking his family with him. Lt. Snow has had his family in Canyon since September.

In recent entertainments furnished at the camp, groups from Canyon have taken an active part. Mrs. Tom Knighton was instrumental in arranging an excellent program, on which the Tyner sisters and the Tolley sisters performed well, and a few numbers by the T-Anchor Cowboys, along with other numbers gave proof that Mrs. Knighton deserves much praise for the courtesy of bringing the entertainment before the Veterans.

Another splendid program was given by the Glee Club from W. T. with Miss Pauline Brigham directing, and with Colonel Coppock in the role of master of ceremonies and host at the conclusion of the program, serving refreshments.

From Amarillo came Miss Hylagene Roberson, who is dancing instructor of the Academy of Music and Art. She presented her class in some novel dance numbers and some classic acrobatic stunts that thrilled and even amazed the large audience.

Another pleasing entertainment was furnished by the Rambling Cowboys from Amarillo, who gave some peppy musical numbers and song hits.

On last Sunday morning, in the absence of Chaplain Ramage, an excellent sermon was preached by L. B. Saxon, who is an enrollee of the camp and who is an ordained minister.

Little Girl Gets Big Hand Again

It doesn't matter whether she's in the midst of a wheat area or an operatic aria, Marion Talley, above, knows her way about. In Chicago, Miss Talley has made her second successful debut in grand opera, in the role of Gilda in "Rigoletto." In 1929 she retired from the stage to go back to her Kansas wheat farm, leaving a successful operatic career which followed her debut in New York.

EPISCOPAL CHURCH

There will be no service at the Episcopal Church next Sunday night, Jan. 21, as the rector and all of the officers of the local group will be in Lubbock attending the annual convocation of the Missionary District of North Texas.

On Thursday, Jan. 18th, Rev. Paul Walter Henckell will receive his full ordination to the ministry, having already been ordained deacon, and having during the past year completed the required work. The ceremony will take place at St. Andrews Church, Amarillo, at ten o'clock in the morning, with Bishop Eugene Cecil Seaman as officiant, and a number of the ministers of the district assisting.

Following the service, the candidate and all those taking part in the ceremonial, together with other out-of-town guests, will be entertained at luncheon in the parish house of St. Andrews Church, on Fillmore Street. Canyon people are especially interested in this occasion, as Mr. Henckell began his ministerial work in North Texas, as student pastor in charge of the work here, during his vacations from the Virginia Theological Seminary, for three summers.

The last two weeks has really been a success for the Eagles and Eaglettes. First boys and gals both beat Vega, and then the gals beat Amarillo, and then the boys and gals beat Tulla. Speakin' uv boys basketball, frum watchen' the game tother night I'd say that Mr. Curtis Ellison didn't hev enough hands; I noticed him usin' his feet to guard with ever once in a while.

Faculty Facts

"Well, I was born 'way out on a farm in New Mexico. It was near a little burg named Rising Star," thus began Miss Brasuel in giving her life-story to an inquiring reporter. "I always considered it a disgrace because I was born in the country," she continued.

Miss Brasuel is head of the home economics department in Canyon High School and has taught here two years.

Miss Brasuel started to school in Kerto, Okla., where she attended school through the second grade. From there her family moved to a New Mexico ranch.

From the ranch home, it was six miles to the school building. There were no wells at the school. She and her younger sister rode on horseback to and from school. Her younger sister rode behind the saddle and carried their lunch and a bottle of water. When they reached school, her small sister realized that they had forgotten their lunch.

Miss Brasuel chuckled as she told how mortally embarrassed she was when she realized she had no lunch. The teacher and students divided their lunch with Miss Brasuel and her sister.

In recalling her life in the Don Carlos hills, she laughingly told about her experiences of her childhood. There was a herd of very beautiful wild horses ranging in those hills. Miss Brasuel liked to mount their own horses and chase the wildest ones.

Once when they were chasing them, the horses struck out across a lake with her and her brother rapidly following. When her horse reached the middle of the lake, it stepped in a hole, ducking Miss Brasuel in the lake. Mrs. Brasuel had warned them not to go in the lake on their horses. As a result, she and her brother did not go home until dark, because they were afraid of the consequences.

Miss Brasuel completed her grade school education at Greenville, New Mexico. Her high school career was spent in Amarillo High School.

From there she attended W. T. S. T. C. one year. The next year was spent in teaching in the Stone community. She received her Bachelor of Science degree from W. T. in 1932. The summer of '32 was spent in C. I. A. at Denton.

The last year has been spent in teaching in Canyon High School. Miss Brasuel visited the Chicago World's Fair last summer, and she also has visited Carlsbad Cavern. She especially likes to read and attend picture shows. She is a member of Kappa Omicron Phi, a national home economics society.

Eagles To Play Calves Friday Night, Jan. 19

The first game slated for the Eagles this week will be played against the W. T. Calves in the Educational gymnasium Friday night at 7:30.

The Eagles were able to eke out a 21 to 17 victory over the Calves in a game before Christmas. The Calves have an excellent record so far this season, and the game promises to be one of the closest played by the Eagles this season.

Music! Music! Students Want More Music

"Take a music bath once or twice a week for a few seasons. You will find it is to the soul what a water bath is to the body. It elevates and tends to maintain tone to one's mind. Seek, therefore, every clean opportunity for hearing. Purchase some kind of instrument for the home and see that its beneficial harmonies are often heard. Let music be as much a part of the day's routine as eating or reading or working."—Oliver Wendell Holmes.

Students should all seek to improve themselves by listening to good music whenever they have the opportunity. They should try to appreciate music more than they do, for it is said that "music is the only art of earth that we will take to heaven." By learning to play an instrument, they shall find themselves admitted into wider circles of friends. At home, music is a constant source of enjoyment both to the one who plays and to others.

The school should offer a good opportunity to those who cannot often hear good music elsewhere; and by offering the pupils opportunities to hear and learn to appreciate good music both the pupil and the school are improved and become more of a credit to the country as a whole.

C. H. S. Exes In Scholarship Society at W. T.

C. H. S. Retained In Association

This letter was received by Irby B. Carruth from the chairman of the Texas Committee, Mr. J. W. O'Banion; it read as follows:
"I am pleased to inform you that the Southern Association of Colleges and Secondary Schools in its annual meeting at Nashville, Tennessee, in December, voted without reservation to retain your school on the accredited list of the Association for one more year."

An Amarillo branch of the Kappa Omicron Phi, a national home economics society, has been organized. Miss Fannie Sue Brasuel, head of the home economics department of C. H. S. is one of the charter members.

Do not grieve because you did not get what you wanted. There is always something better left.

Staff Visits Borden's, News-Globe and KGRS

The staff of the Eagles Tale visited the News-Globe offices and other points of interest in Amarillo, Saturday. The first point of interest was Borden's Creamery, where the club saw where and how butter was made and ice cream manufactured. While the group watched the ice cream being frozen, they were served frosticks, after which each member was permitted to sample the ice cream before it was taken to the hardening room.

The Press Club then went to the KGRS broadcasting station where the operator and announcer explained how the station worked, gave the members of the club valuable information concerning radio works as a vocation, and played several records as special requests of the club.

Since the main reason the club went to Amarillo was to visit the offices of the News-Globe, that was the next stop. The members of the staff visited the composing and press rooms and received a copy of the Society Section of the Sunday issue of the paper which they watched come off the press. The club visited the offices of Old Tack. They also saw how the Associated Press works and watched the news come off the machine especially made for that purpose. George May, who directed the club about the offices, gave valuable information about the many phases of newspaper work as a vocation. The club enjoyed refreshments at a drug store before returning to Canyon.

15 Students Have Perfect Record In Attendance

A good point in the classification of an excellent student is that he has neither been absent nor tardy during the first semester.

One does not only miss out in his school work, but his absence keeps him from enjoying school.

The following students have neither been absent nor tardy during the entire first semester of this school year:

Seniors: Nell Slaton, Mary Strain. Juniors: Jewell Chambers, Curtis Ellison, Freida Lowry, Edith Steen. Sophomores: Gertrude Braudt, Sam Archer, Lucy Mae Furlow. Freshmen: Evelyn Cluck, Boyd Clayton, Sherman Higdon, Forrest Hill, Rubie Rhodes, Mildred Shuman.

Those that have been tardy but not absent are as follows:

Seniors: Kitty Burrus. Juniors: Roy Phillips. Sophomores: Estill Furlow. Freshmen: Mary Collins, Carolyn Mayfield, Neva Lois Miller, Fay Plaster, Anna Mayo Sharp.

Notwithstanding a great man has said you can't fool all the people all the time, a great many are still trying it.

Basketball Girls Elect Greenfield, Crawford, Captains

The basketball girls elected Armore Lee Greenfield captain, on January 6th.

Armore Lee has been a student of the Canyon Public School for eleven years. During these years she has made an excellent record, both in her studies and in athletics. She has played on the girls' basketball team for four years and was captain last year. She is a leader in other school activities as well as in basketball. She is a member of the debate team, president of the pep squad, and is a member of the student council. She will graduate with the senior class of '34.

Also elected was Velma Crawford as co-captain. She is a senior and a member of several different clubs.

Home Ec. Girls Choose Interesting Home Projects

Each semester, every girl who is taking Home Economics selects some home project that she thinks will benefit her most. Some very interesting ones were chosen for the past semester.

Out of the various classes, 21 girls chose garment construction. There were a number of unusual projects that were adopted. One girl chose habit forming. She analyzed her habits, and concentrated on correcting the old ones, and making new habits worth while. Another girl adopted losing weight. Another took marketing duties. She selected all of the meats, vegetables and table supplies for a certain length of time.

Perhaps the second most popular project was meal planning and service. Nine girls from the foods classes chose this.

Five girls chose canning. Four girls adopted entertaining. Three girls chose interior decoration, and two girls took each child care and personality improvements.

These projects have been interesting to the Home Economics students who have apparently received much benefit from them.

Similar projects will be chosen this semester, but each girl will choose a project dealing with the H. E. course that she is taking at this time.

Report Cards of C.H.S. Changed

Report cards for the students of Canyon High School have been completely altered. They are no longer mimeographed, but are in a neat printed form. Citizenship grades, furthermore, are now checked upon the students' personal characteristic trait.

This list of character traits includes both favorable and unfavorable standards. Those of the favorable list are as follows: Industrious, studies well, self-reliant, dependable, careful of work, courteous, shows improvement, promptness, tries hard, proper attitude; those of the unfavorable are: wastes time, needs home study, lacks confidence, unreliable, careless, discourteous at times, work shows falling off, too much tardiness, appears, not to try, opposes school program, grade too difficult, promotion in danger, parent should visit principal.

The system of giving grades has, also changed somewhat. If the student receives: A, he is careful, works independently, uses time well, shows leadership, is prompt in preparation of work, is outstanding student of class.

B, he prepares all work well is dependable, interested, responds readily, does all work assigned, and has good study habits.

C, does good work, but must have help from teacher, dependable, has good intentions, little more than minimum average student.

D, he is barely passing, fails frequently to respond in class or in written work, little responsibility, may be wrongly classified.

E, he is conditional, will be changed to a passing grade or failing, due either to absence, or other factors.

F, he is failing, work is wholly unsatisfactory.

By this list, the student will, for the semester beginning January 15, be graded.

The report cards, here-to-fore given to the students, will be mailed to the parents.

Eaglettes Win From Tulla Girls Low Score 11-7

January 13 proved unlucky for the feminine cagers of both Canyon and Tulla as far as scoring is concerned. The Eaglettes got the big end of the score with 11 points to Tulla's 7.

Although both teams missed several shots, neither team was able to get many good shots at the basket.

The game was very slow with frequent fouls in the first period. A Tulla forward opened the scoring with a field goal after about 3 minutes play. Plaster made 1 point from the foul line and Schmitz made a field goal for the Eaglettes. The first period ended with Canyon leading 3 to 2.

In the second period the Eaglettes were able to tally 6 points to the Hornets' 2, but in the third Canyon did not score and Tulla made only 3 points.

The fourth period was rough, and only 2 points were made by each team.

Schmitz was the star of the Eaglette offense, and Overton starred on the defense.

Did You Know?

That the Press Club went to Amarillo Saturday?

That the Junior and Senior Home Economics Club met Monday night at Rosa Cash's home?

That the afternoon session of the ninth grade history class had a new teacher, Miss Ethleen Murrell?

That the eighth grade English class, from 2:00 to 3:00 o'clock has a new teacher, Miss Jewell Foster?

That Borger will play Canyon here January 25th?

That journalism, commercial geography, physical geography and civics are being taught this semester?

That the Eagle girls defeated Tulla last Saturday by a score of 11 to 7?

MEMORIES OF CANYON HIGH

By Arthur L. Chambers

Remember the days that are long gone by.

When we went to school at Canyon High.

Remember the themes we had to write.

And the times when we sat up most of the night.

Those were the good old days gone by.

With the strict rules and teachers of Canyon High.

Remember the school loyalty song. And the chapels with talks so dry and long.

Remember the football games we played.

And better sports there never were made.

Than the loyal rooters that stood so high.

To the Purple Peps of Canyon High.

Remember at last the graduation day.

When the seniors assembled in the month of May.

To receive the diplomas that we had earned

Through many long hours with lessons learned.

And then we left with many a sigh

And lots of memories of Canyon High.

ADVICE FROM SENIOR SISTER TO INEXPERIENCED FISH

Dear Freshman:

This letter is written to you so that your high school life will be easier than mine has been.

You have entered a new era of life. One in which you are expected to realize that you are no longer a child, but are developing into young manhood or young womanhood. Won't you start right now and make every grade the best that you can, for if you flunk even a half-year subject just remember that that half year subject must be made up. Just ask some of your brother seniors, who are taking five subjects so that they can graduate, if it is any fun.

See that you take all of your required subjects as soon as possible so that you will not "come up missing" your senior year.

Make better acquaintance with your teacher—understand them; it will help you.

Boys, don't start smoking unless you want the juniors and seniors to remark sarcastically, "Look at that little kid smoking."

Girls, be your age.

This is just some advice from your big senior sister.

Students Play Violins At Church Meet

The first and second violins of the Canyon High School orchestra, or the Violin Choir, played a number of pieces at the Epworth League of the Methodist Church, last Sunday.

"HIGHEST TEST" AND anti-knock
at the price of ordinary gasoline

THAT'S OUR STORY
and we are sticking to it

The support of motorists like yourself made 1933 the peak year in the history of the Phillips Petroleum Company... proved that experienced drivers appreciate honest high test gasoline at the price of regular.

Deeply grateful for this ever-expanding preference, our pledge to the motoring public is continued with renewed emphasis:—"Highest test and anti-knock at the price of ordinary gasoline."

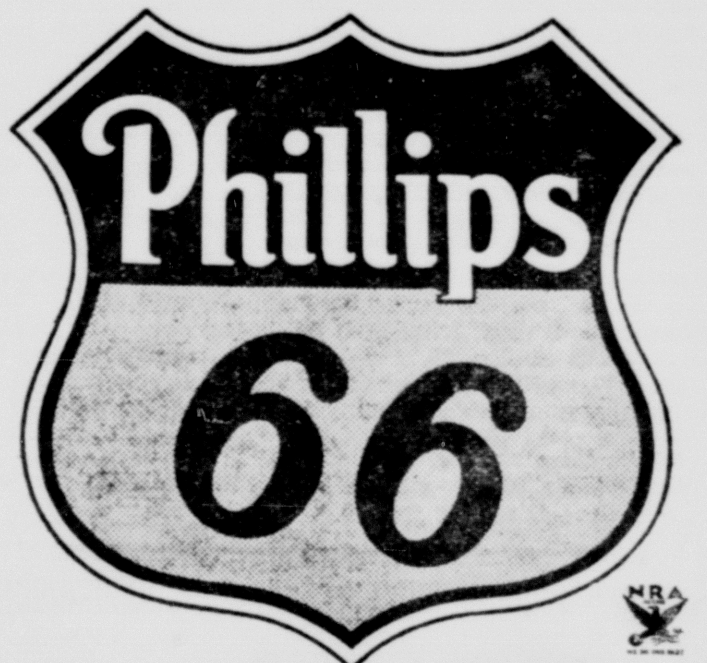

This is the greater value made possible by our position as world's largest producer of natural high gravity gasoline.

Please consider these facts before you buy your next tankful of gasoline: Phillips 66 at regular price contains tetra-

ethyl lead, the anti-knock fluid formerly used only in premium-priced motor fuels. In addition, it is always correctly matched to your weather by the scientific principle of CONTROLLED VOLATILITY, pioneered by Phillips. And its high test (gravity) is so high, that without fear of comparison we publish its rating in plain figures, below.

I particularly invite new car owners anxious to protect their motors to *Phill-up with Phillips 66*. You can confidently expect faster starting on freezing days, and finer performance and more mileage on every day in the year.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name on the label. Resent a substitute. 25c at drug stores.

curate record be kept, and seek to get full value for every dollar that is spent. He believes that money may be saved the county in its running expenses when all of the commissioners take an active interest and carefully investigate every bill that is presented to the court for payment.

Road building is one of the main things that all farmers to the county are interested in. Farmers must have good roads in order to reach the market with their products and reach their schools. The administration of the road and bridge fund should be carefully handled, and this fund guarded so that the county will receive the best values possible. Mr. Kuehn wants to see the county have good roads, but believes that if the commissioner will give personal supervision, and will be discreet in the spending of the money, road costs may be materially reduced.

With his long residence in the county, and his experience both as a farmer and a business man, Mr. Kuehn feels himself qualified to fill the office he seeks, and will greatly appreciate the support of the voters in the Democratic primary.

Book Shower For Library Will Be Held on Jan. 31

The first two people to buy book cards in the Public Library under the new plan were a high school boy and a middle aged woman. Both requested a book by James Oliver Curwood, and both were accommodated.

Nearly 1,000 books are now on the shelves in the reading room where all visitors can see them and all may read them in the library, while those who have purchased library cards may take them out. Cards may be purchased of the librarian, Miss Fannie Malone.

Miss Malone states that on Tuesday afternoon eighteen people used the library. There is a great need for reference books and for magazines, funny papers and daily papers.

Judge S. B. Orton donated a copy of "A New Deal" by Stuart Chase to the library this week.

A committee headed by Mrs. J. Roy Moores has planned a County-wide Book Shower for Wednesday, January 31. Every person in Randall County is invited to attend and bring a book for the library or a silver offering. There will be given three times during the afternoon so that all who come can have ample opportunity to hear it. Members of the committee who are working with Mrs. Moores are Mrs. Travis Shaw, Mrs. Dan Sanders, Mrs. Harry Wood and Mrs. Mitchell Jones.

A finance committee which will work for funds for the new library has Mrs. Joe B. Gamble for its chairman; Mrs. W. E. Miller, Mrs. Carl Scott, Mrs. Tom Knighton, and Mrs. C. R. Burrow are other members of the committee.

Men of the town are giving valuable assistance to the library movement, and it is expected that the service can be rapidly extended.

The library is open Tuesday, Thursday and Saturday afternoons until five thirty, except on one Saturday of the month when the room is used by the Home Demonstration Clubs of the county. Miss Malone states that people who have spare time while in town, or those who are waiting for busses are invited to read in the library. School children of all ages are especially invited to use the reading room.

No woman is an old maid until she dresses like one.

FDR's Budget Message Brings Drive for Billions in War on Depression

SCENES of feverish activity which preceded the Liberty loan campaign of wartime are being re-enacted in the Treasury Department at Washington. The nation's money experts are launching a drive for the billions specified by President Roosevelt in his remarkable budget message to Congress; billions which will oil the nation's economic machine, creaking from long inactivity.

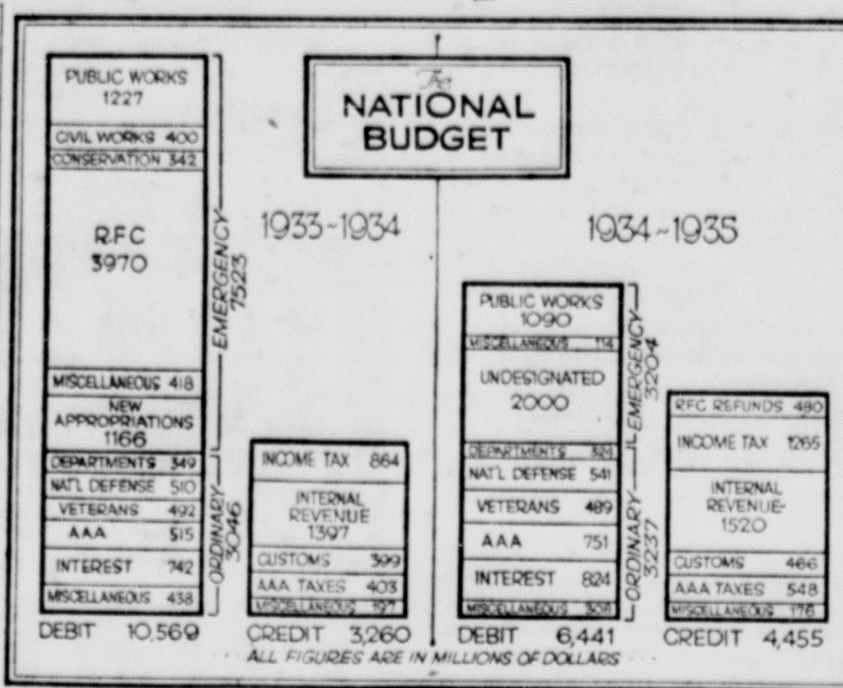

Ten billion dollars will be needed during the next six months, if the recovery program is to continue and the treasury books to balance. An idea of the stupendousness of this sum may be gained from the fact that it amounts to a dollar for every second of time which has elapsed since the Pilgrim Fathers landed in America.

Another high point of the president's report was that for the fiscal year which ends next June, there will be a deficit of more than \$7,000,000,000—the largest peace-time deficit in the history of the United States.

He confidently expects, though, that in the 12 months beginning next July, there will be a sharp change from this great deficit to a balanced budget.

Purpose of a balanced budget is, of course, to prevent a further increase in the national debt, and to make possible its reduction through a sinking fund. Reduction of the public debt cannot come too soon, for the president and his advisers estimate that on June 30, 1935, it will be swollen to the unprecedented figure of \$31,834,000,000.

Never has the national debt ever approached this staggering sum. The previous peak was \$26,594,000,000, reached on Aug. 31, 1919. Payments into the sinking fund and redemption of federal obligations brought the national debt down to \$16,185,000,000, when the depression started it up again.

This chart illustrates how, by June 30, 1935, the end of the next fiscal year, the Roosevelt administration plans to have the budget in balance (except for \$200,000,000 needed for direct relief and to wind up the recovery program).

The current budget, for the fiscal year ending June 30, 1934, is shown at left. Ordinary expenditures total \$3,046,000,000. Emergency expenditures, of which the biggest items are heavy allotments to the RFC and for public works, add up to \$7,523,000,000.

The total of ordinary and emergency costs is \$10,569,000,000. To stack against this, Uncle Sam has incoming revenue amounting to only \$3,260,000,000, mostly from income taxes and internal revenue. Thus, the staggering deficit of \$7,309,000,000 for the current fiscal year.

In the new budget for 1934-35, there is no great change in the amount of ordinary expenditures, the total being \$3,237,000,000. But striking changes are evident in the emergency expenditures.

There are no appropriations for the CWA and RFC. Instead, \$2,000,000,000 has been set aside for relief purposes if needed.

The emergency costs total \$3,204,000,000, which, added to the total of ordinary costs, bring the entire expense for the next fiscal year to \$6,441,000,000.

Disregarding the \$2,000,000,000 in undesignated relief funds, the budget for the new year will be brought into balance—with a few millions left over—by incoming revenue of \$4,455,000,000.

Stunt Night At College To Provide Much Entertainment

The American Legion will furnish one section of the Stunt Night program which will be given at the College next Monday night, when the Y. W. C. A. invites the whole town and countryside to meet for the annual evening of laughs which this organization has sponsored for many years. J. B. Fowler will direct the tLegion numbers.

The Stunt Night program is called "Musical Memories" and will feature the songs that have been "hits" from the gay nineties when "After the Ball" was heard to "The Big Bad Wolf" and "Did You Ever See a Dream Walking" of 1934.

A double quartet composed of Elizabeth Faulkner, Florene Bowman, Dorothy Clark, Laura Virginia Bills, Broughton Hardin, Lex Alexander, Malcolm Carr and Prentice Windsor will sing songs of old favorites, while others will appear in dramatic skits, pantomimes and dances.

The T-Anchor Boys will sing a group of songs, and the popular Canyon Novelty Orchestra will play during intermissions. The slogan of Stunt Night thru

many years has been "A dollar's worth of fun for a dime" and this is continued this year. The revue will take place in the College Auditorium at eight o'clock.

Bufs Play At Las Vegas During The Week End

Breaking into the win column for the first time this season, the West Texas Teachers outplayed and out generated the Northwestern Oklahoma Teachers to gallop to a 32 to 25 victory in the second game of the series played Friday and Saturday on the floor of Burton Gym.

In the first game the Bufs failed to get together, and their individual work was not good enough to topple the scoring of the dead eye shots from Murrayland. Smith, Ranger captain and an All State man last year, louped in 7 field shots and two gratis throws to chalk up 16 points for high score. The Ranger center was second in scoring by virtue of his ability to dribble in and hit crisp shots. He scored 12 points, all on field shots. Stroud was high point man for the Herd, sinking nine points. The final score was 36 to 23.

The Yorkmen woke up in the second game and played a real brand of basketball. In spite of the fact that the Rangers made the floor look mighty rough, and gave the crowd quite a few laughs, the Bufs were never behind, letting the Simmonsmen come only within five points of them. On the first play "Big John" Walker tapped the ball to McMinn who passed straight to Richards, who, culminating a perfect play, dribbled under the basket and made the first tally, giving the Maroon and White a lead which they never relinquished.

The second game was played rough, especially in the second half. The Rangers fouled frequently in their fast but futile efforts to take the lead, while the Buffaloes were guarding a little to close in their anxiety to prevent the previous night's scoring orgy. An exhibition of some fine guarding by Ted Phillips, however, running second on scoring in spite of his guard position. He made 9 points. McMinn and Richards tied for the next place with 8 points each.

The Bison Herd showed good ability on the floor and will give any team which they have yet to play a run for their money if they play together as they did over the Rangers in the second game.
